Overview of our Collection

This season Trespass are offering more choice, more options and value even in these tricky times. As usual, we cover every price point. The collection is comprised of everyday rainwear, casual, high end outdoor and a stunning collection of snow sport clothing with classic ski wear and contemporary freestyle ski and snowboard clothing. We have introduced several new fabrics. Offering more choice and better options on lower price point items. Look out for Apex, Allta and Ascent. Premium mixes a snowboard look with streetwear. Muted colours for life on and off the snow.

DLX now includes both hard and softshell options for both men and women in outdoor and an outfit each for snowsport. Tres-tex Stretch goes further this year with a larger selection and Radium takes a step up in performance, now rating 15K/8K.

Our performance outdoor clothing starts with membrane construction fabrics. Fully waterproof with taped seams, these jackets come in a range of vibrant colourways, targeted specifically towards keen outdoor enthusiasts. Our Softshell collection combines everyday wear with styles suited more to a life outdoors. Base colours and patterns are supported by vivid brights. Highly waterproof with welded pockets, this season's softshells are set to impress.

On top of all this, accessories collection is bigger than ever. More for camping, hats of many colours, gloves and goggles as well as a host of new base layer options. We hope you enjoy browsing our new collection. We're sure it will impress you and your customers.

DLX

DLX is a hand selected range specifically chosen to provide the best in performance and features. This is the best of the best, ideal for those who demand a little bit extra. DLX spans the entire collection, from accessories to high-end outerwear yet remains true to the ethos of value in a life outdoors. Delux performance clothing and equipment. Designed for Life in extremes.

TRES-TEX® 3 LAYER FABRIC

Trespass excels in "bad weather" solutions. Tres-tex® 3 Layer Waterproof Fabric is breathable and Windproof with taped seams. The fabric is supple and durable and when used as the outer shell in a layering system, 3 Layer Tres-tex® will allow you to maintain a dry and comfortable personal environment when the weather is not at its best.

TRES-TEX®

Waterproof, windproof and breathable, this performance fabric is used in many of our ranges. Supple, durable and functional coatings and surface treatments help repel water and work with your layering system to draw moisture away from your body.

TRES-SHIELD

Tres-shield Fabric, ideal for bad weather situations. Waterproof, windproof & taped seams, this performance fabric is used to produce a range of great value outerwear. Supple and durable, functional coatings and surface treatments help repel water and wind keeping you comfortable.

PACKAWAY

Be prepared without sacrificing weight and space in your pack. Packaway garments are lightweight, adjustable and less bulky yet retain their performance.

3-IN-1

3 options in 1 garment. A custom layering system consisting of an outershell and removable fleece offering maximum versatility and the ability to adjust your personal microclimate.

AIRTRAP®

Designed for comfort and warmth from soft, light, breathable, anti-pill fleece, these garments are a versatile mid-layer. The special structure of Airtrap® not only stretches to give you freedom of movement but creates airspaces that trap and hold your body heat.

TAPED SEAMS

Every seam produced creates hundreds of needle holes that water can get through. Applying a thermoplastic tape under heat and pressure will seal the seams to keep moisture from passing through. Taped seams keep you dryer and warmer.

COLDHEAT®

Coldheat Insulation. Lightweight, durable and soft lofted fibres trap and hold the heat generated by your body, giving you maximum freedom of movement allowing you to stay comfortable in the most arctic of conditions.

RECCO®

The RECCO Rescue System utilises advanced radar technology to make quick location of an avalanche victim possible. RECCO is a passive system, which means there is no need for batteries or maintenance and nothing to turn on or off.

INTELLIGENT®

An inspired solution to the cold weather problem. Reflective surfaces send back valuable warmth that would otherwise escape. By reflecting the body's heat, intelligent use of materials can reduce bulk and padding with insulated outerwear.

DUOSKIN®

Duoskin® Intelligent Fabric from Trespass effectively draws moisture away from the skin. This moisture quickly evaporates when brought to the surface of the fabric, leaving you dry and comfortable. Tightly woven fibres, high wicking and quick drying.

DUOSKIN+®

Trespass DUOSKIN+® technology is your first line of defence against harmful UV and uncomfortable humidity. UV protection, lightweight and quick drying. Developed with travel and leisure in mind.

COOLMAX®

Coolmax® fabric offers soft, lightweight and breathable comfort. It wicks moisture away from your body keeping you cool, dry and comfortable.

COMFORT STRETCH

Comfort Stretch offers maximum comfort while allowing extreme freedom of movement when worn. Lightweight, it is ideal for all outdoor adventure travel.

ANTIBACTERIAL

Garments are treated with an odour prevention treatment to help keep the clothing fresher for a longer period of time.

Fabric Rating System

Finding the right combination of waterproofing and breathability to meet your exact needs is crucial if you want to stay warm, dry and comfortable in any condition. We make finding the fabric that's right for you easy, with our tiered rating system. The quick reference guide lets you zone in, indicating where this particular item sits in the Technical Performance range. Choose the 'TP rating' to satisfy your needs or activity. The higher rating means increased features/performance.

Winter 11/12 Colour Palette

Our snowsports 11/12 palette takes inspiration from a sense of vigor and passion in what we do outdoors - bright hues against blue skies complimented by natural base colours.

Colour leads the way on snow this year. Ultra bright highlights feature on the more sedate colours, these can be combined with solid colour blocks to make ski or snowboard outfits that are bang on trend. Prints also feature highly in our snowsports collection, fresh patterns and textures that will appeal to every palette.

Partnerships and Events

As well as the regular 'TRADE ONLY' shows we feel it is important to stay in touch with the public, maintaining a presence the real end users.

METRO, SKI AND SNOWBOARD SHOW

The Trespass Big Air played host to the London Ride and the British Snow Tour Invitational Championship with top British and International athletes competing throughout the week on a 50ft kicker. The 50ft kicker was even bigger than last year. The Trespass name cannot be missed when visiting this hugely popular snow sport show, it is also represented in all printed literature, podcasts, online video and has links from the website. www.metrosnow.co.uk/

THE TRESPASS BRITISH SNOWBOARD & SKIERCROSS CHAMPIONSHIPS

A grass roots competition circuit designed to attract new blood culminating in the grand final, the "Brits" held each year in an alpine resort, most recently Laax in Switzerland. This is supported by the Schools Tour. Champions inspire youth to get out and be active. The Schools Tour takes to the road to educate and inspire school pupils to try snowboarding and skiing for the first time. The team of professionals - among them Olympians & British Champions - will visit schools across the UK. The tour also receives a huge amount of coverage online and in the ski and board press as well as regular slots on television and regular podcasts. www.britishsnowtour.com

SNO!zone AT XScape

For years now Trespass have been closely involved with the entertainment complexes that are Xscape. In each centre there are popular indoor real snow slopes run by SNO!zone. Trespass not only have visibility within all of these slopes, but have branded hire areas and concessions in place too. All clothing for hire has been supplied by Trespass as well as the uniforms for all staff including medics and instructors alike. These centres are a huge draw for consumers and not only encourage snow sport in summer months, but allow people to witness Trespass clothing in action throughout the year. www.snozoneuk.com

MASON FEREBEE

Trespass provide clothing support for young Mason Ferebee, who with the help of his family is entering ski competitions far and wide. Whether its his local Milton Keynes SNO!zone. Last year's jacket and trousers have been excellent and seem to be much more resistant to wear than previous designs although I'm not sure if it's due to the material or that Mason's not catching himself on the rails as much! He was chosen as one of 16 riders to compete in the Quiksilver Radar Freestyle competition in la Plagne France.

NICK PIOTROVSKI

Nick hails from the Russian Federation but kills it all over Europe. His time is mostly spent upside down, busting powder lines or filming with his crew 'Action Brothers'. If you can read Russian, visit Action Brothers site, if not, Nick has a MySpace page. He won the Hibin Freeride competition in Kirovsk, Russia, April 2010.

Just a selection of the projects we have been involved in recently. We look to invest in others who will help introduce and proliferate involvement in outdoor sports, and encourage others to . . . Go Further!

If you want to keep track of events or join in on the social media front, Trespass is available via Facebook, Blog & Twitter.
