Womens Fleece

Inside every outdoor wardrobe is a good, warm fleece. Our range of fleece jackets and tops are designed to keep you warm, dry and comfortable in all types of weather.

Great as an extra layer, or for everyday use, our AT rating system will help you find the right fleece for any activity. Balancing warmth and weight, the higher the rating the heavier the fleece, means we have a style to suit every taste and budget.

Using **Airtrap®** technology to create airspaces that trap and maintain body heat, our range of fleece offer warmth, protection and comfort. The fabric is soft to touch, light, breathable and allows you to move with ease.

SIZING
