Mens Rainwear

With a range encompassing performance levels reaching up to 5000mm / 5000mvp, our carefully selected outerwear caters for all levels of use.

Our highly functional waterproof jackets and pants will offer optimum protection when the bad weather rolls in, but is great for day-to-day wear too.

Trespas Rainwear utilises a variety of technical fabrics such as **Tres-tex**[®], for waterproof, windproof and breathable ratings, **Tres-shield**[®], waterproof and windproof fabric and **Coldheat**[®], to insulate and maintain body heat, making them ideal for a wide range of outdoor activities in all temperatures. Other useful features include coated fabrics, welded and water resistant zips, peaked hoods and packable options.

This season we introduce the vibrantly coloured **Rocco** waterproof jacket as a fresh take on the classic rain jacket. With bright contrast, low-profile zips and plenty of practical features, this waterproof, breathable and windproof addition will instantly be an outdoor favourite and a key piece this season.
